## Preface

The President's Office-Regional Administration and Local Government (PO-RALG) manages Pre-Primary, Primary, Secondary, Adult and Non-Formal Education in Tanzania Mainland with the duty of ensuring that all schools are well managed and provide quality education. Management and provision of quality education requires adequate and equitable teachers, sound infrastructure and adequate school materials. To do this, we need to have up to date information and statistics that will enable us to assess school needs and monitor performance. Availability of Basic Education statistics will also enable education stakeholders to carry out education planning and research necessary for improving the education system.

In order to have adequate and quality Basic Education data, PO-RALG started preparation of annual statistics booklets in the year 2013 containing pre-primary, primary, secondary, adult and non-formal education with the disaggregation at the regional and council levels. Availability of data helps in monitoring of regional and council differentials in performance and inputs and take appropriate measures to harmonize and improve the system where necessary. Most of the statistics are collected directly from schools while the rest are obtained from other relevant institutions such as The National Examinations Council of Tanzania (NECTA) and The National Bureau of Statistics (NBS).

This booklet has information on student enrolment, teachers, education facilities and examination results. It is our belief that, the booklet will be useful to the education stakeholders and others with interest in the education system.

President's Office - Regional Administration and Local Government acknowledges contributions and inputs from the stakeholders, Government Institutions, Private Sector and Development Partners for their contributions that has made this publication possible. Special acknowledgement is extended to the Ministry of Education, Science and Technology (MoEST), the National Bureau of Statistics (NBS) and the National Examinations Council of Tanzania (NECTA) for their tireless support in making sure that this publication becomes success.

For further improvement of this booklet, PO-RALG welcomes views from all education stakeholders. This publication can be accessed through PO-RALG's website <http://www.tamisemi.go.tz>.

## **System and Structure of Education and Training**

The education system is currently based on the 2 – 7 – 4 – 2 – 3+ structure; that is 2 years of Pre-Primary school, 7 years of primary school, 4 years of ordinary (lower) secondary school, 2 years of advanced (upper) secondary school and at least 3 years of higher education (Tertiary level).

### **Methodology**

Data presented in this publication is that of education levels and categories under the jurisdiction of PO-RALG. These include pre-primary, primary, secondary, adult and non-formal education. Education data is collected through annual census of education institutions using questionnaires designed specifically for the purpose. Data on Pre-Primary, Primary, Secondary, Adult and Non-formal education are collected through questionnaires and entered in the system at school/centre level. The entered data are verified at School, Ward, Council, Region and National levels. Data on Population is obtained from the National Bureau of Statistics (NBS) while that on examinations is obtained from the National Examination Council of Tanzania (NECTA).

The reference date for data collection in Pre-Primary, Primary, Adult and Non-Formal and Secondary is 31<sup>st</sup> March of every year.

## **2.0 PRIMARY EDUCATION**

According to the current practice, Primary Education is a seven year education cycle after Pre-Primary Education. It is universal compulsory and free to all children aged seven years to thirteen years old.

The primary school cycle on entry begins with standard one (Std I), ends with standard seven (Std VII) in the final year. However, the education and training policy is currently under review process in order to comply with recent developments in education sector as well as to provide a well defined direction for further development.

Note: High performance was observed at Dar es Salaam with the pass rate of 93.3%, followed by Arusha region (91.7%) and the lowest performance was observed at Mara (69.7%). Kilimanjaro recorded the highest percentage of candidates joined form one (94.1%) while Tabora reported lowest (63.6%). Kilimanjaro, Iringa, Pwani and Singida regions reported percentages of candidates joined Form 1 higher than the percentages of candidates passed; this reflects that there are students completing primary education from one region and joining secondary education in another region.

**Note:** In Government schools, average male PLR is 1:60 against the Standard of 1:25; and 1:56 for female against the standard of 1:20. These indicators are still a challenge in primary schools with notable variations among councils and regions. The council with the most insufficient pit latrines for male and female is Itiliima DC with PLR 1:126 and 1:121 respectively. The council with most sufficient pit latrines according to the standard is Makete DC with PLR 1:18 for both male and female.

### **3.0 SECONDARY EDUCATION**

The formal secondary education consists of two sequential cycles. The first cycle is a four year programme of Ordinary Level (O-Level) secondary education. The second cycle is a two year programme of Advanced Level (A-Level) secondary education.

The O-Level secondary education cycle begins with Form 1 and ends with Form 4 whereby Form 1 selection and enrolment in Government and Non-Government secondary schools is subject to the performance in National Primary School Leaving Examination (PSLE). The A-Level secondary education has Form 5 and 6. The Selection and enrolment in A-Level for Government and Non-Government secondary education is based on prescribed performance level in the relevant A-Level subject combinations after attainment of appropriate credits in the Certificate of Secondary Education Examination (CSEE).

Form 4 and Form 6 examinations mark completion of secondary education cycles and the results of these examinations are used as entry qualification for joining further formal education and training.

**NOTE:** Average male Pit Latrine Ratio is 1:28 against the national standard of 1:25; and that of females is 1:26 against the standard of 1:20. Pupil Classroom Ratio is 1:41. The adequacy of latrines and classrooms is still a major challenge in secondary schools with notable variations among regions, where Geita and Simiyu regions have the highest PLR (1:42, 1:40 respectively). The highest PCR values were recorded in Geita and Mwanza (1:56, 1:53 respectively).
